APRIL 13, 2021

H.E. Joseph R. Biden, Jr.
President of the United States of America

H.E. Nancy Pelosi
Speaker, U.S. House of Representatives

H.E. Chuck Schumer
Majority Leader, U.S. Senate

Re: 1 Year after My April 14, 2020 "Open Letter" - M/O Novel Coronavirus Aka Covid19
Aka "2019-n-CoV" or "2019-nCoV" - Compensation Is Due from China; and If We Were
Pearl Harbored, Then Reparations too.

Honorable President Biden, Speaker Pelosi, and Majority Leader Schumer:

As an un-conflicted American, I love and admire the Chinese culture; always have, and find Confucius wiser as I age. With God's Grace I and my family survived Covid19 on or about March 29, 2020. Treating this Virus as a cancer case that I needed to crack, and after learning biochemistry and epidemiology during an intense effort, I did so, and a year ago, on April 14, 2020, I wrote a 6-page "Open Letter" to then-President Trump, Speaker Pelosi and then-Senate Majority Leader ("OL"; copy enclosed, with uniform spelling of "Wuhan"), and for POTUS, emailed it to a former Marine: Deputy NSA Matt Pottinger at 8:31pm. In the OL, I had the science, the facts, and recommendations, including, bringing our "supply chains" home. The next day, April 15, 2020, about 1 p.m. the United States opened a preliminary investigation into *inter alia* the origin of SARS-CoV2 from PLA-run Wuhan Virology Lab, and the motives of CCP China in causing its global-spread without sounding a pandemic-alarm directly or thru theWHO. I remain grateful for the start of the April 15, 2020 "all hands on deck" Investigation.

It remains an open secret that my analysis was and is correct, and that this is a lab-created Frankenstein that transplanted the "Spike Glycoprotein(S)" ("Spike") from Bats - a unique feature in bats, as they are either "cold" or "warm" blooded, and still, a warm Bat can procreate with a cold Bat due to the "Spike." OL at 3. I called "Covid19," aka "WuhanVirus," a Trojan Horse, as its Spike feature does not cause our immune system to sound an alarm upon infection (and the T-cells remain asleep). Disturbingly, CCP has not turned over, to this day, the genome of Patient Zero who was admitted in Wuhan hospital on or about December 1, 2019, while a

different protein string-virus was released on or about December 31, 2019 at the Wuhan Wet Market. The animal farms about a 1000 miles away from Wuhan, did not experience a Covid19 outbreak, thereby decimating the WHO's coddled-team's report, after a 3-hour chaperoned visit to the Wuhan Virology lab, falsely asserting a virus jump from an animal to a human.

WHO dishonored its high fiduciary obligations, and did not promptly alert the leaders of every nation that a pandemic was afoot and ask to lock-down CCP's China. President Trump said we were fighting an invisible enemy. I disagree; the cascading events in just the South China Sea - from creating Mischief Reef, to sinking of Filipino Fishing boats with Fishermen to their death, to sinking Vietnamese Fishing boats, to the recent squatting of 245 Chinese Militia ships, lashed together to appear as part of "9-Dashes" in Philippines' Exclusive Economic Zone - are in violation of *inter alia* the UN Convention on the Law of the Sea ("UNCLOS"). The Virus is surely invisible, but this string of protein, despite its lab-based default programming, has no animus towards us and does not benefit by causing death and destruction - and by my last count, our needlessly dead well exceed our losses at Pearl Harbor. A substantial question arises: is Covid19 a biowarfare agent? The death and destruction we have suffered suggests a motivated animus, which is a human phenomena that renders us unworthy in the eyes of God.

Despite Truth-in-Labeling laws, CCP has succeeded in blocking this Virus from being origin-labeled by deeming it racist. Our misguided citizens criminally attacking innocent law-abiding Asian-Americans has provided cover, while shaming us as a nation that celebrates diversity, and staining E Pluribus Unum. Our shameful chapter of interning innocent and loyal Japanese-Americans during WWII, when we did no such thing to German-Americans while fighting Nazi Germany, is a lesson we need to learn perpetually, exactly, as Kristallnacht teaches: remember always. It is a singularly important ingredient in our effort to form a more perfect union - a point recently well made by Secretary Blinken in Anchorage.

I write to seek from you dear and respected President Biden, given your distinguished tenure and natural God-given abilities - a clear American policy - both as to our injury from Covid19 and holding the sending-nation reasonably responsible (turnover all biomedical information, indemnify our losses, etc), and to restore global peace and security, by avoiding a war if we can. Indeed, pre-Covid19, troubled by the years-long effort by China to create Mischief Reef into a military base, in September 2017, I had a respectful conversation with China's distinguished FM Wang Yi, which in sum and substance, I explained the above facts and said, you are inviting a little war now or a big war later, and since I don't like wars, I prefer a little war now. Minister Wang, with concern, immediately responded: No war! No war!, and left to end this conversation.

Diplomacy is always needed, even to arrange a surrender to end a war. It has been reported that President Xi, whom I consider to be at least as much an exceptional mastermind as Chairman Mao was, if not more, has asked his diplomatic corps to unsheathe their swords to be Wolf Warriors - a function or definition that defies diplomacy, even as it weaponizes it. Given that backdrop, we, as hosts at Captain Hook Hotel in Anchorage on March 18, 2021 - instead of a protocol-based public welcome, private candid talks, and a public press conference at the end - started with our honest expressions in public. In a moment that evokes - albeit, in part - a declaration of independence [sadly, from us], CCP's Foreign Affairs Chief Yang Jiechi effortlessly responded in public, what I believe was intended for private talks. We are at the cusp of a modern day Gordian Knot.

While I take note of William Stanton's recent April 9, 2021 piece on "*Agents of Influence*," I particularly take note of former NSA H.R. McMaster's May 2020 piece in *The Atlantic*, entitled "*How China Sees the World*," I freely admit that it was our then-President Nixon who opened the world for China and granted CCP a permanent seat on the UNSC. Whether we have a rules-based or law-based system of sovereigns co-existing in the comity of nations, we ought not be in the position of having to pick between the ever-reasonable and well-calibrated go-along and get-along Neville Chamberlain or Winston Churchill as being necessary to maintain our cherished freedoms and never surrender our sovereignty. Methinks, a new joint Yalta and Brentwood Conference is needed, before over-due structural reforms can occur, and global peace and security re-harnessed, without endless regional wars.

Mr. President, you and I have had several meaningful exchanges, including, in the White House, and most relevantly, in the UN's Hall of Flags in Fall 2015 - when I urged you to run in 2016, as an election you were born for - to revive the American Dream. The American Dream belongs more to everyday Americans, than Wall Streeters, custodians of international money and achiever of maximum profit, as it was everyday Americans in 1814 who during heavy bombardment of Fort McHenry, kept our Flag high by paying the ultimate sacrifice repeatedly, and caused Francis Scott Key to pen our Star Spangled Banner. Please let it wave high, and free, in this 21st Century.

If I can assist, as you wished of me during our substantive talk in the Hall of Flags, as a citizen-patriot, devastated by January 6th more than by 9/11, I would be happy to re-find diplomacy's respect-based ability to "round the edges" and fashion justice-based remedies that are equitable - as the Jesuits teach us everything must be. Sometimes, *davening* with the right *Minyan* helps to be better able to turn *swords into ploughshares*. As Honor and WWII walk into the ring to face off, the time is now for your leadership to make foreign policy into domestic policy - just as your infrastructure plan is our OBOR/BRI within our borders. Retail solutions will not work in the East or in the West; but, wholesale solutions will turn adversaries into allies. God Bless you, and continue to Bless these united States of America - I prefer "united," the verb.

Respectfully,

Ravi Batra

APRIL 14, 2020

H.E. Donald J. Trump
President of the United States of America

H.E. Nancy Pelosi
Speaker, U.S. House of Representatives

H.E. Addison Mitchell McConnell, Jr.
Majority Leader, U.S. Senate

Re: Open Letter - M/O **Novel Coronavirus** Aka Covid19 Aka "2019-n-CoV" or "2019-nCoV" - Compensation Is Due from China; and If We Were Pearl Harbored, Then Reparations too.

Honorable Messrs Trump, Pelosi, and McConnell:

Let me begin with three obvious facts: first, the Chinese civilization is a great one, with many superlative contribution to humanity, including, empire building, martial arts, gun powder, tea, and perhaps, best of all, Confucius (who famously said: May you live in boring times); second, I am a Blessed survivor of Coronavirus, that at 104.3 fever, when I was on fire for 2-3 days, I was at the surreal edge between live and death, where I could calmly talk to God to allow me to live so I may serve and protect my family and serve the Greater Good. In my personal and intimate experience, I labeled Covid19 as a Trojan Horse, as it obviously has a very friendly "handshake" with every host's auto immune system to gain entry, before turning to destroy one's Walls of Troy; and third, today the known global Covid19 cases are 1,945,055, with 121,897 global deaths, total US cases of 584,073 with 23,700 deaths, and New York, our epicenter, nearly 11,000 New Yorker have died. As a disclaimer, I am an American first, a registered Democrat second, and I voted for Donald J. Trump in 2016. I applaud the President for standing up to China's unfair trade with us, and I am most troubled with her 24/7 global efforts to gain military and economic superiority on land, air, water and space, well beyond OBOR, and her continuing and enhanced misbehavior in South China Sea. Finally, yesterday, I specifically tweeted to dear Amb. Zhang Jun, China's PR, and to her bilateral Ambassador Cui - as "fairness, respect and personal honor requires me to invite you to respond to my Tweets I've made re China, WIIO and Covid19." Unlike, on April 4, 2020, when PR Zhang and I respectfully conversed on Twitter, albeit, about the serious need for China to disclose the "Raw Truth" about Covid19, China's distinguished diplomats incredulously maintained "radio silence," when being forthcoming was

what was required - both as a duty, and as reciprocal honor.

Recently, on April 9, 2020, House Oversight and Reform's Ranker Jim Jordan, and his colleagues, sent a gentle letter to Dr. Tedros Adhanom Ghebreyesus, DG, of the WHO. I join in said letter, albeit, I would not have been so gentle to a dishonest fiduciary, whose misconduct proximately caused the world's public health to lay in ruins and the world's economies were set adrift from both fiscal and monetary policies.

WHO breached its fiduciary-forensic duties owed to the world, as it dishonestly enjoyed being China's lap dog and purposefully issued false statements, and delayed declaring a pandemic so as to create a confusing record for nations' leaders, reasonably causing miscalculation. I had in days prior to Rep. Jordan's letter, called for an amendment to the UN Charter, to do away with the moth-balled Trusteeship Council and to replace it with a new Public Health UNSC, but named "UN Pandemic Council," with 12 Permanent Members and 9 or 13 Rotating Members, charged with Responsibility to Protect, a sovereignty-piercing power, and have OPCW, as well as a reconstituted WHO, albeit, re-named, and then report to it. I am happy to say, Philippines Foreign Minister, dear Teddy Loocin has publicly - on Twitter - approved my proposal, and other nations' Permanent Representatives have expressed interest in also supporting such a change to surgically remove the corruption-cancer and establish "clean margins" for honest fiduciary-forensics to protect the global Public Health.

It is a curious fact, that where-ever we have cut back in our contributions at the UN and her "organs," China for merely giving UN the funding-shortfall we created, has become the "cherry on top" of all such organs. This is wrong, and an insult to our mammoth contributions still being contributed, but, incredulously, taken for granted. The WHO ought be defrocked and defunded, while its function - only vital if the forensics are done consistent to high fiduciary duties - and then, it too, as reconstituted, report to the new proposed UN Pandemic Council.

The role and function of the United Nations is vital and important as ever, as the UNSC, charged with preventing WWII has handsomely succeeded, even as the weeds of local and regional wars have mushroomed. UN is celebrating its 75th Anniversary. Perfect time for some "spring-cleaning," and re-calibration to achieve necessary reforms to better effectuate the high ideals of the UN Charter. It is, after all, a paraphrased amalgam of our Declaration of Independence and our cherished Constitution, to help form a more perfect world.

Coronavirus - as a matter of biochemistry (see, "**1st documentary movie on the origins of CCP virus - Tracking Down the Origin of the Wuhan Coronavirus**" (The 1st Documentary) <http://youtu.be/C1dd7dtDaYM>).

I rely upon this cited evidence, see below, as it credibly shows, and I credit it, that the "story of the Wuhan Seafood Market" is a pretext and an elegant cover-up, which is exposed as such with biochemistry: China denied there was any "human-to-human" transmission. Well, we know that to be a Big Lie, as we are all under a Lockdown to prevent "community spread," i.e. human-to-human transmission. Jon Cohen wrote in the Journal Science, "Wuhan seafood market may not be the source of novel virus spreading globally." In a paper entitled, The clinical features of patients with 2019 novel coronavirus in Wuhan, China, published in The Lancet, whose first author Huang Chaolin, Deputy Director of Jin Yin-Tan Hospital, and Dr. Sean Lin, who said:

- I. Symptom onset of the First Patient is on December 1, [2019] had NO relation to the Huanan Seafood market;
- II. No epidemiological link was found between the first patient and later cases;
- III. On December 10, [2019], there were 3 more cases, 2 cases of the 3 cases had NO relation to the Huanan Seafood Market;
- IV. Since December 15 [2019], a cluster of cases with a history of seafood market exposure have been reported;
- V. NO one sells BATS at the Wuhan Seafood Market and NO BATS have been found.

Judy A. Mikovits PhD, Molecular Biologist, Former Director of Lab of Antiviral Mechanisms NCI said: There were no bats, and the idea of the spread so fast through the population is highly unlikely and improbable.

There were 99 confirmed cases at Jin Yin-Tan Hospital, of which 50 had NO exposure to Wuhan Seafood Market.

45 of the 425 confirmed cases before January 22 [2020], had NO contact with the Wuhan Seafood market, albeit, the secondary source of a virus appears to be mushrooming and overshadowing (cover-up) the original breach of the original virus.

Daniel Lucey, an epidemiologist at the University of Georgetown said the first case would have been infected by the virus already in November [2019] - if not earlier because there is an incubation time between infection and symptoms surfacing. [Means Wuhan Seafood Market is a secondary source, not the primary source, and as a result of "community spread," at best, or a separate virus introduced to cover up the earlier one, at worst].

Gordan Chang, Asian Affairs Expert, and columnist, said: We know that Beijing for six (6) weeks in December [2019] and January [2020] suppressed information, before acknowledging on January 20th, and they then started a campaign of suppression of information, and on January 26th created a panel, and it was very heavy with propaganda officials. Indeed, the vice chairman of the group is the Communist Party's propaganda czar. The Communist Party Group imposed a false diagnostic criteria, starting with - must have contact with Wuhan Seafood market, knowing a solid one-third of the cases had ZERO contact with Wuhan Seafood Market. Thank God, they didn't impose a Bat-Bite requirement for their investigation. Hence, it was the start of an organized cover-up, and to mislead the world as to what China was really up to.

Gen. Robert Spalding, Senior Fellow Hudson Institute, and former NSC Senior Strategy Director, was in China when SARS happened. Same playbook.

Critical Evidence - The Mysterious Gene Sequence (from the 1st Documentary):

The coronavirus, aka "2019-n-CoV" - has a 100% amino acid similarity in the nsp7 and E proteins with "Bat-SL-CoVZC45" and "Bat-SL-CoVZXC21, but worst of all, the "2019-n-CoV" - has a reversed-engineered and grafted-on in a lab of the natural-to-bats "receptor-binding" domain structure, the "mushrooms" on the surface, of the "SARS-CoV" - i.e. a transplantation of the **Spike Glycoprotein(S)**, the natural "mushroom" on the surface of "SARS-CoV" is in a lab genetically added/spliced/grafted onto o "2019-n-CoV" - which I have, from personal experience, called a Trojan Horse to have a friendly "handshake," is in fact accurate biochemically - as the

“receptor-binding” unlocks the human cell, and enters the human body much easier! The SARS “Bat-SL-CoVZc45” and “Bat-SL-CoVZXC21” - with its natural Bat-based “mushrooms” on the surface - did not enter humans.

CDC's Error: Curiously, the CDC.Gov site publishes the January 29, 2020 article in The Lancet - which gets into the genome characteristics of the subject coronavirus, aka “2019-nCoV” aka “2019-nCov,” at

(<https://www.cdc.gov/coronavirus/2019-ncov/downloads/genomic-characterization-of-2019-nCoV-Lancet-1-29-2020.pdf>), which states the predicate findings, as

“The ten genome sequences of 2019-nCoV obtained from the nine patients were extremely similar, exhibiting more than 99.98% sequence identity. Notably, 2019-nCoV was closely related (with 88% identity) to two bat-derived severe acute respiratory syndrome (SARS)-like coronaviruses, bat-SL-CoVZC45 and bat-SL-CoVZXC21, collected in 2018 in Zhoushan, eastern China, but were more distant from SARS-CoV (about 79%) and MERS-CoV (about 50%). Phylogenetic analysis revealed that 2019-nCoV fell within the subgenus Sarbecovirus of the genus Betacoronavirus, with a relatively long branch length to its closest relatives bat-SL-CoVZC45 and bat-SL-CoVZXC21, and was genetically distinct from SARS-CoV. Notably, homology modelling revealed that 2019-nCoV had a similar receptor-binding domain structure to that of SARS-CoV, despite amino acid variation at some key residues.”

Despite finding that 2019-nCoV had these “receptor-binding,” which is not natural, but was reverse engineered, like the WHO misleading the world, issued an “interpretation” that ignores the non-natural addition of these Spike Glycoprotein to Coronavirus!

Edgar Allan Poe: Purloined Letter

I well recall the famous American mystery writer, Edgar Allan Poe, who in his “Purloined Letter” - has the subject letter hiding in “plain sight” in a letter box on the desk, while everyone is looking for secret compartments. Here, the first case had NO exposure to Wuhan Seafood Market, and there are NO bats at said market. Hence, Wuhan is secondary source, after community spread, and can be ignored and discarded as a “cover up.” The actual and original source of the coronavirus is therefore elsewhere. That is an undeniable fact, well capable of meeting even the criminal standard of proof - “beyond a reasonable doubt.” I, therefore charge China with hiding the actual source of coronavirus, and ignore the fraudulent assertion by the Chinese Communist Party Propaganda Czar that Wuhan Seafood Market, with zero Bats, has any value to getting to the source, or finding the most precious item right now across the world: the most effective vaccine to this plague from China. China, it appears, is following an old playbook it developed in SARS outbreak

The question, then arises: where, oh where, did Coronavirus come from?

The answer, given the reverse-engineered receptor-binding, my “Trojan Horse” element, which makes this virus so contagious, since it took a natural element in the two SARS virus, and spliced it on to Covid19 to unlock human auto-immune system/defense.

Why did China allow its citizens to travel the world after November 2019, when she knew there were coronavirus (with artificial receptor-binding) cases, which had nothing to do with Wuhan Seafood Market? Was this negligence? Was this intentional? I cannot prove intent, but negligence, is overwhelming.

China had a duty to tell the WHO, and the world (not, do a "hit & run"):

The International Health Regulations (2005) are internationally binding rules upon member-states, which obligate them in handling public health issues, especially, for highly transmissible diseases. Ironically, they were adopted after the 2003 SARS outbreak in China - and then too, China was criticized for not promptly disclosing - what I have demanded - the "Raw Truth." These rules are enforced by the WHO, China's Lap Dog, and thru the ICJ. Among the Rules violated by China include, WHO's Article 6 (Not notifying WHO of a Public Health Emergency - in November 2019), article 7 (Un-timely information-sharing during an emergency), Article 64 (not providing timely epidemiological reports - the core violation, given China's active cover-up, and even substituting Wuhan Seafood Market as a false source), and finally, violating the anti-corruption regulation, Article 37 (seeking to influence the WHO DG Dr. Ghebreyesus, and staff - WHO has played well as a lap dog, and hence, China has violated this Article).

Pearl Harbor - FDR: "A Day That Will Live in Infamy" - when Kamikaze Pilots of the Imperial Forces of Japan hit us on December 7, 1941 in a sneak attack, but in broad daylight, their attack started at 7:55 am and lasted till 9:00am, a little over an hour, causing, according to the National Park Service, 1998 Navy personnel, 109 Marines, 233 Army personnel and 48 civilians killed at Pearl Harbor on December 7th, 1941; a total of 2388 Americans killed. Still, the Japanese airmen were enemy combatants, and died in service to their Emperor - until General Douglas MacArthur had him abdicate divinity on the deck of the USS Missouri. Here, however, China used - negligently or heaven forbid, intentionally, her everyday unwitting citizen-tourists and businessmen, contaminated with Coronavirus, to spread the deadly and lab-engineered plague of death and destruction, and then covered it up and went "radio silent." China is criminally guilty at least of a "Hit and Run." If our Government was to find out that we were Pearl Harbored, even more sneakily than on December 7, 1941, then China must lose her UNSC Permanent Seat, and give the world \$100 Trillion in reparations, and disband her military.

Rule of Law in our Rules-based world - The Standard of Proof and Permitted Inferences:

I honor the established standard of proof, and permitted inference - Civilly, when only compensation is due, the standard is "mere preponderance of the evidence," and a "negative inference" is charged, when a party who ought to speak up or produce documents, but doesn't, such party is presumed to be hiding "inculpatory" evidence of said party's guilt. My near 10-day Tweets in seeking to honestly crack the Coronavirus case - based upon reliable evidence - and a specific tweet, predicated upon fairness, respect and personal honor, to Ambassadors Zhang and Cui, including, even a tagging of "@China_mfa," sadly, did not cause a tsunami of facts and documents showing China's innocence to come my way today.

Instead, China has "closed" and "covered up" tighter than a drum used in parades. This behavior violates a core "duty" to speak up, let alone help find the best Coronavirus vaccine. Accordingly, on the established rules of law, China is at least guilty of negligence in proximately causing a world pandemic, where nearly 2 million people have suffered its pain and suffering, and nearly 122,000 souls have lost their lives and left their families damaged and fractured. A simple example: a trucking delivery service has two trucks, one that is a flat-bed, and the other, which is a closed truck-container. The Owner directs the driver to use the flat-bed truck, load it up with boxes, and then strap them down tightly. The driver, on the road, hits a few bumps, does a few hard brakes, and the next thing you know, as he is going around a turn his load becomes loose and shoots across the highway. The cars behind while trying to avoid being "shot at" by the

bouncing boxes, crash into each other or the road divider, many suffering injuries, and some even dying. A lawfully negligent driver would stop his truck, get out, and try to help, or at least call 911 for ambulance and police. China didn't do that. China kept driving, and when asked, told falsehoods to deceive. Hence, under established laws, China is at least guilty of a "Hit & Run," which is a crime.

Additional facts: China has cancelled approximately 8 million cell phones in the last 3-4 months - each Chinese citizen is authenticated by their government by their cell phone. Unless you are dead, you don't cancel your cell phone. This suggests that China's coronavirus death toll far exceeds its official number of a mere 3,300. Since President Trump has sought to impose fair trade between us, China's FDI in the United States has dropped from over \$45 Billion to just over \$5 Billion. This shrinking footprint suggests evasion of expected sanctions for bad acts.

Recommendations and Conclusions to POTUS and U.S. Congress:

1. China owes us civil compensation - at least for negligence, which has been proven the legal standard - in a fair and reasonable amount, which I recommend match our standard for 9/11, but no less than \$1 million dollars for every American who tested positive for Coronavirus, \$5 million for every American who died, and \$100,000 for every American who has to be "locked down." Every other nation can negotiate - using our good offices of Secretary Pompeo - for their fair and reasonable settlement;

2. China owes criminal "hit & run" sanctions: I recommend, given the cover-up, which exacerbated the injury, pain and suffering globally, as well as avoidable deaths, that China's ownership of debts in every country - for example the \$1.2T in China's ownership of our T-Bills - be cancelled. As a further example, it means Sri Lanka's \$9 B debt is cancelled, and she gets her largest port back. Furthermore, China must vacate Mischief Reef, and stop all aggression, such as blocking "freedom of navigation," or just a few days ago, ramming a Vietnamese fishing boat, with eight fishermen fishing in Vietnamese waters. This outlaw behavior, coupled with aggressive and active attempts to buy military enhancing capacities must stop.

As I respectfully told China's distinguished Foreign Minister Wang three years ago in 2017 at the UNGA, China is inviting a Little War now, or a Big War later - and I prefer a Little War now. He responded, "No War; No War." The unleashing of global death and suffering with the coronavirus, a plague upon all of us, is worse than Pearl Harbor, and given its deception, and later, cover-up, lack any semblance of Honor.

Respectfully,

Ravi Batra
