Mr. Asencio, your self-serving email demonstrably misrepresents the facts.

As to service, if you think there has not been effective service on you, you are free to argue that to the court, and we will respond accordingly.

Have a nice Thanksgiving.

Mr. Bowe,

At 1:10 P.M. today, I was on the phone with Nat August on a matter unrelated to EROS and he mentioned that EROS file a lawsuit and has named me as party . This was the very first exact instance of my have any knowledge of any kind about EROS' action. I went on e-file and found the attached documents alleging service. This may be disturbing to you but your service providers' affidavits are false. I have not been served and have no knowledge, personal or constructive, of EROS' action or any attempt of service other than the attached.

More importantly, it is my understanding that we have always had a very good and open working relationship. In fact, if I recall correctly, in June 2016, last year well over a year ago, we spoke on numerous occasions about EROS' unwillingness to speak to me. I was especially interested in speaking to Kishore Lulla and Prem Parameswaran.

I clearly recall explaining that I was ready, willing and able to speak to you and any other party about any objections, comments or concerns that you had about asensio.com EROS reports.

To avoid any confusion and eliminate any doubt, I offered to make any changes, alterations, amendments, clarification, augmentations, explanations, modification or corrections to any asensio.com material that EROS believed to the least bit incomplete, misleading or inaccurate. I recall repeatedly inquiring of you and EROS's investors relations officers for information. This offer stands today.

Further, iwe spoke on the telephone about EROS displeasure with my attendance at a Gabelli investor conference. I agreed not to attend at your request. I also recall numerous constructive email exchanges about your interest in obtaining information about the controversy pretaining to EROS' auditors, public valuation and SEC/PCAB accounting issues. As you know, I am the Pioneer and pride myself on upholding the highest standard in our profession. If EROS feels unfairly treated, by asensio.com or any member of the financial community, I want to be the first to know and the first to rectify the matter. This policy stands today.

It would be my pleasure to meet with Kishore Lulla and Prem Parameswaran as soon as possible and be of any assistance. And of course, as stated in June of 2016, and repeated here, I am prepared to receive any information from you or the company and to make any changes, alterations, amendments, clarification, augmentations, explanations, modification or corrections to any asensio.com material that is deemed to be proper and necessary in the interest of EROS, its directors, employees, shareholder, bondholders and public at large.

Please give me a call as soon as possible. Thank you.
