"QTR believes $EXOS is in a massive liquidity crunch and can't generate cash. With a bond offering failing, very scary for equity investors."

GeoTaran @GeoTaran1989

"$EXOS yesterday failed to price its new 9% bond due to lack of demand from high yield rat. Could there be a liquidity crunch at $EXOS?"

Quoth the Raven: QTRResearch, Mar 11

"$EXOS equity worth $1M IMO
- no liquidity
- rejected bond offer.
- SPWDL in India
- self-shorting allegations
- ugly A/R & CFO issues
- debt."
