Indian films now reportedly being delayed because $EROS "not paying balance" to producers. No liquidity crisis here! catchnews.com/bollywood-news...

The makers of Sarkar 3 in an official statement revealed that the Amitabh Bachchan starrer has been postponed and will now hit the big screen on May 12.

The announcement surprised many given the fact that the film was merely 2 weeks away from its release. However, Kamal R Khan had already broken the news on twitter on May 19 saying that the film will be pushed owing to a financial crunch in Eros International.

He tweeted,

"According to sources #sarkar3 can't release on 7th April coz Eros is not paying balance 29Cr to producers."

Eros International had acquired the worldwide distribution rights of the film from the producers, however they are reportedly yet to give the complete pay cheque according to Khan.

$EROS is historically late in disclosing its annual report by over a month now. A sign of caution? portal.geoinvesting.com/geoarticles/13...
$EROS continues to sell off its main subsidiary. New findings today add to findings we reported in an article on @GeInvesting yesterday.

EROS appears to continue to be actively selling its subsidiary, Eros International Media Ltd ("EIML") on the open market. Here are two sources where we found shares sales, in addition to share sales we wrote about in a report published yesterday at GeInvesting.com:

1.  https://www.nseindia.com/products/content/Equities/Equities/bulk.htm

We’re now seeing sales on the following dates according to the sources above:

- 7/13: 1,514,596 shares, representing (by our calculation) 1.60% of EIML
- 7/14: 1,244,850 shares, representing (by our calculation) 1.32% of EIML
- 7/18: 1,186,926 shares, representing (by our calculation) 1.26% of EIML

Keep in mind that on 7/5 they also pledged 7,000,000 shares representing 7.41% of the subsidiary, so in the past 2 weeks they’ve pledged or sold 11.59% of their operating subsidiary.
